

Dear Raymond,

I want to thank you for all of the work you have done for us for past several years. You have been providing us the best service with best price and product. I have never had someone who is so nice, honest, and professional like you during my entire 18 years of career with Galleria Market. Only with you, I could break my rule to shop as many as possible before purchasing since you are the only one who always gives us the best choice.

I always feel very fortunate to have such a nice partner and you have always made my job easier.

You and Action sales are the perfect example of the kind professionalism that I want to see from our employees all the time.

Thank you again for your hard work and support and we hope to continue more business with you and Action Sales at always.

A handwritten signature in black ink that reads "Sally Park".

Sally Park
