Stainless Steel Door Hinge

Description **Single Swinging Traffic Door**

Designed to control traffic flow and manage noise levels from one room to the next. This swinging traffic door adds efficiency to your dining establishment, no matter how crowded the kitchen might get. This door is corrosion-resistant, durable, and easy-to-clean. It features a lightweight design that effortlessly opens and closes from both sides. It is ideal for use by personnel, though it may not be suitable for heavy traffic areas or for use with carts. In addition to restaurants, this door is effective in retail stores, supermarkets, convenience stores, pharmacies, commercial kitchens, and more!
