

CUSTOM PUZZLE BOARDS

Epicurean Puzzle Board systems more than meet Health Department requirements for food prep surfaces. In fact, Puzzle Board systems exceed these requirements by providing chefs with unsurpassed usability as well as resistance to bacteria because of their unique non-porous surface. Puzzle Board systems can be custom-made for new prep areas, or they can replace existing, worn-out, one-piece High Density Polyethylene boards.

An upgrade to Epicurean Puzzle Board systems from your current system is simple. Use this sheet to note your custom measurements, and we'll fabricate your surfaces so that they perfectly fit your cutting area and break down easily for your dishwasher.

SURFACE THICKNESS

3/8"
1/2"

STOCK PUZZLE BOARDS

Puzzle Boards are designed to break down and fit into dishwashers, then fit back together to create a surface large enough for commercial prep lines. These dual-sided boards are heat and stain resistant and require no maintenance.
