Juice Extractors

ES500

The new ES500 is not only more compact and lightweight, but also more functional and quieter than ever. Each component has been redesigned specifically for extracting fresh juices from fruits and vegetables with automatic pulp ejection. The practical design is ideal for medium size juice bars that consume up to **22 pounds** of fruit a day.

Ceado ideas

Genuine juice

Thanks to the “**Pulp Retainer**” – a stroke of genius by Ceado – the juice obtained is clearer and brighter, thus considerably enhancing the taste.

Juice Fit

The feed chute, **3 inch** diameter, takes a whole apple, no chopping or peeling required.

Feed chute
3 inch diameter

Wash & go!

Dishwashing is quick and easy, as the basket with magnetic catch and parts in contact with food are simple to remove and replace, with no tool required.

Safety

Greater safety thanks to the interlock system: lifting the safety locking bar stops all moving parts.
