GLASS DOOR BACK BAR COOLER

EBB – Series Model : EBB90G

Operating temperature range is 32°F ~ 42°F

Cabinet Construction

Heavy duty stainless steel countertop, textured and laminated black vinyl exterior. Galvanized steel interior wall, and high quality stainless steel floor. 1 3/4" thick high density foamed-in-place polyurethane insulation. Built-in caster thread receptacles.

Refrigeration System

- · side mounted condensing unit
- \cdot Oversized condenser and evaporator coils quickly achieve and maintain desired temperature
- Forced-air cooling with oversized evaporator fan motors providing balanced airflow throughout cabinet to ensure faster temperature drop
- Removable side panel and slide-out condensing unit for convenient repair and maintenance
- Environmentally friendly CFC free R-134A refrigerant
- · Air defrost controlled by electrical timer
- · Copper tube and aluminum fin evaporator with anti-corrosive coating
- \cdot Energy efficient condensate drain pan assembly heated by high side copper tube
- Pre-wired and ready to plug, 115V/60Hz/1Ph, NEMA 5-15P

Doors

- Black PVC door frames
- \cdot Low emissivity double pane glass system reflects UV rays and improves
- · insulation for maximized energy efficiency
- · One piece snap-in magnetic door gaskets for easy replacement
- · Heavy duty die cast door handles
- · Door locks

Lighting

 Shielded vertical LED interior lighting with on/off switch for energy saving, less heat generation and enhanced illumination (available from 2015 models)

Shelving

- · Two epoxy coated wire shelves per section
- · Stainless steel pilasters and shelf clips

Temperature Control

- · Factory preset temperature, 35°F
- Temperature setting range from 32°F to 42°F
- Easy to set analog thermostat

Option

· 2 1/2" and 4" diameter casters (3 1/2" and 5" overall height)
