

Specification

International Certification	NSF / CE / KC
Color	Black Spots
Shaving Speed	4 - 14 oz./min
Max Ice Block Size	7" x 7"
Voltage	100-120 v / 50-60 hz
Power	110 - 120V, 60Hz, 185W
Net Weight	48 lbs.
Dimension (W x D x H)	17 in x 15 in x 35 in

- **High Precision**

The precision of the shaving blade is the key to make soft, fluffy, high-quality Shaved Snow. Our ice shaver features a shaving blade with exceptionally high precision -- higher than any other commercial ice shaver in the market!

- **Sanitary Design**

A porous shaving plate can be an ideal breeding ground for bacteria. Our machine comes with a food-grade, non-porous, germ resistant stainless Steel design and easy to clean. The ice shaver is NSF approved.

- **Double Protection**

Our ice shaver is equipped with an overloaded circuit break and an electricity leakage breaker. The leakage breaker ensures the operator's safety and the circuit breaker greatly extends the lifespan of the machine.

- **Updated Features**

The ice shaver features a new shaving plate window allow you to attentively monitor the consistency of the Shaved Snow. This ice shaver also comes with a foot pedal to operate the machine freely without the use of hands. The updated front cover is fully covered the shaving chamber to meet the higher sanitary standard.
